Portsmouth, NH (March 1, 2008) – LDI Corporation, an emerging leader in the development of PVC-free products for the healthcare industry, has signed a national purchasing agreement with HealthTrust Purchasing Group, LP (HealthTrust). The agreement allows LDI to offer its line of PVC-free Post-Mortem Body Bags to HealthTrust members.

Designed to resist tearing and fluid leakage, LDI's medium-duty **EnviroMed-Bag®** and heavy-duty **EnviroTough-Bag™** are made from PVC-free, olefin materials that burn clean during incineration, dramatically reducing the toxic emissions that may be released from PVC (vinyl) bags.

“We are pleased to be a part of HealthTrust’s growing portfolio of environmentally preferable products,” said Josh Dame, Vice President of Sales & Marketing for LDI. “Healthcare purchasers are increasingly concerned about the materials and chemicals being used in their facilities. As the industry shifts toward safer materials, LDI is committed to developing products that exhibit environmental and safety benefits without sacrificing performance.”
