

Mort-Port™ Drainable, Mortuary Garments

#1 Cause of leakage from plastic garments is fluid overflow

#1 Solution to avoid leakage is the Mort-Port™

**Patent
Pending**

Mort-Port™ Unionalls and Super-Capris™

PERFORMANCE FEATURES:

- Re-sealable ports accommodate any size aspirator hose
- Drain-on –Demand (on the table or in the casket)
- Easy to use, strong, flexible port
- Tough, durable plastic

Mort-Port™ saves time, money and worry

- Reduce risk of mortuary malpractice suits
- Minimize exposure to blood borne pathogens
- Avoid damaged reputation from leakage of protective garments during a viewing or service
- Avoid mess and expense of cleaning fluid spills

New Super-Capri™ Design offers extended torso coverage

- Eliminates the need to combine stockings and coveralls
- Added coverage for added protection
